*Declaration of Worthless Property*

- 1981 Chevy truck, former animal warden vehicle, does not run. (VIN 1GCCC14G3BF388732)
- 1986 Cushman, does not run (VIN 898454-8710)
- Approximately 10 Motorola radios from the 70s. Had one toggle switch (up/down) for Dispatch or Car-Car, along with the accompanying equipment to make it work.
- Approximately 10 red or blue lights, single round lights that were mounted on the outside of some vehicles in the 70s. They are rusted and junk.
- KM Equipment Engine System Analyzer, used for vehicle engines back in the 70s. It has to be twenty five or thirty years old and Fleet says it has no value because it probably won't even work on current vehicles, if it works at all. Again, it has been sitting for at least fifteen years.
